#### Reactive Sign sites

All would be suitable except the unmade pull in on Stang Lane.

You need three sites so that has been achieved.

Company Bratton Fleming, Combe Martin and Lynton used is Westcotec

[Speed Indicator Device - Westcotec](#)

You need to fill in my locality budget forms but Val and I can sort that over the next few weeks when you know more about costs etc. I will also if you want to go ahead ask for a survey of utilities for you as there aren't posts on the sites. We can discuss later on.

Please continue to report defects and issues on the highway network;
